## SPRAY TAN CONSENT FORM

NAME \_\_\_\_\_

ADDRESS \_\_\_\_\_

PHONE # \_\_\_\_\_

EMAIL \_\_\_\_\_

DATE OF BIRTH \_\_\_\_\_

### SPRAY TANNING WAIVER AND LIABILITY RELEASE

Please read, understand and sign the following.

- Caution –Pregnant or nursing women should consult their physician before their session.
- Warning –The spray tan ingredient DHA (Dihydroxyacetone) has been approved only for external application and should not be inhaled or ingested internally.
- Warning –This product does not contain a sunscreen and does not protect against sunburn.Repeated exposure to the sun of unprotected skin while sun tanning may increase the risk of skin aging, skin cancer and other harmful effects to the skin even if you do not burn.
- Spray tanning is accomplished in part by application of a solution containing the active ingredient DHA. According to the FDA (Food and Drug Administration), DHA is a color additive for use in imparting color to the human body. However, its use in cosmetics --including sunless "tanning"products --is restricted to external application.
- The FDA advises that spray tan users should avoid inhaling or ingesting DHA or letting the spray get into your eyes. When using DHA-containing products as an all-over spray or mist, it may be difficult to avoid exposure in a manner for which DHA is not approved, including the area of the eyes, lips, or mucous membrane, or internally. Therefore, it is recommended that you take protective measures to eliminate eye contact, inhalation or ingestion during your spray tan session, such as:
  - Using protective eyewear
  - Wearing nose filters
  - Sealing lips with lip balm
  - Using protective undergarments
  - You may bring your own protective items
- The spraying process will take approximately ten (10) minutes. After spraying, you will dry approximately eight (8) minutes before putting your clothes back on, and you should not shower, bathe or sweat excessively for six (6) hours.

Continue to other side 

• The bronzing and tanning solutions used during your session have the potential to stain clothing. We recommend that you wear something dark in color that can be stained without concern. Cotton clothing is less likely to stain. After your tanning session, you should wear dark, loose fitting clothes.

• It is also possible that the tanning solution may transfer to other clothing, furniture or car seats after your session.

Washing or dry-cleaning will usually, but not always, remove the color. We suggest bringing a towel to cover your car seat. BEAUTY BAR or it's employees are not responsible for potential stains to clothing or upholstery. Please be careful.

• Some individuals in certain circumstances may be allergic to one or more ingredients in the spray tan solution. In such a case, please discontinue use immediately and consult a physician.

• Be advised that a small percentage of people have skin that does not react favorably to spray tanning. For this reason, we do NOT advise being sprayed for the first time when your appearance is critical; e.g., wedding, special occasion, photographic session, modeling assignment, etc.

#### LIABILITY WAIVERS

This process has been explained to me and I hereby agree to allow a spray tan technician from BEAUTY BAR, to apply spray tan solution to my skin. To my knowledge, I have no medical condition or allergy which would preclude me from having this procedure done. I agree to hold BEAUTY BAR or it's employees harmless of any and all liability for medical complications that may arise from exposure to the spray tan solution. I have been advised to discontinue use if any reaction occurs. I agree to hold BEAUTY BAR or it's employees harmless of any and all liability for pregnancy related medical complications that may arise from exposure to the spray tan solution. I acknowledge that I have been advised to consult with a physician who can properly assess the pregnancy-related risk and complications potentially involved through exposure to spray tanning and DHA while pregnant. I acknowledge that the importance of wearing protective items to limit / prevent inhalation or ingestion of DHA in the area of the eyes, lips, or mucous membrane, or internally has been discussed with me. I also acknowledge that I have been given the opportunity to wear my own protective items. Furthermore, I agree to release BEAUTY BAR or it's employees from any liability in the event of stains to clothing, car and furniture upholstery, jewelry and accessories, and any other objects my body might come into contact with.

I have read and completely understand this consent form.

I agree to the above waivers of liability.
